Course Description: This course gives instruction in wiring methods for single family, two family, and multi-family dwellings. Topics include wire sizing, installation techniques, and calculations necessary for electrical installations.

Course Learning Outcomes: Students will compute the circuit sizes need for the installation of branch circuits, feeders, and service entrance cables. Explain the proper installation of wiring devices according to electrical codes.
Demonstrate grounding methods. Install ground fault circuits. Identify residential wiring methods.

Course Competencies: Upon successful completion of this course, each student will have demonstrated through comprehensive examinations, with a score of 70% or better, a competent understanding of: The methods and skills necessary for residential wiring. Calculations used in residential wiring. Codes applicable to residential wiring.

Academic Integrity: The attempt of any student to present as his or her own work which he or she has not honestly performed is regarded by the faculty and administration as a most serious offense and renders the offender liable to serious consequences, possibly suspension. If you have a question as to whether you may work with other students on any assignment, ASK YOUR INSTRUCTOR.

Assignment Policy: All required work must be turned in on time in order that the student may benefit from the corrections and study for future examinations. Assigned outside work is DUE ON THE CLASS PERIOD ASSIGNED. The instructor has sole discretion as to whether late work is acceptable.

Attendance Policy: **Students are expected to attend all classes in order to be successful in a course.** The student may be administratively withdrawn from the course when absences become excessive as defined in the course syllabus. **Students with four (4) or more absences MUST contact their instructor.** When an unavoidable reason for class absence arises, such as illness, an official trip authorized by the college or an official activity, the instructor may permit the student to make up work missed. It is the student's responsibility to complete work missed within a reasonable period of time as determined by the instructor. **Students with illness related or other absences must communicate with the instructor for those absences to be excused.**
